## TURKISH WOMAN LAYS CLAIM TO BEING 160 YEARS OF AGE

CONSTANTINOPLE, March 20.
(P)—The Turkish feminist movement has reached the stage where even the claim to being the oldest living Turk has been taken from the mere man who long held it.

Zaro Agha, whose age is given as 153 years, has ceded his lonagevity title to Fatma Hanum, who has just arrived at Angora from the Thracian wilds, claiming to be 160.

The intrepid lady as proof of her asserted age gives many re-

miniscences of events that oc-curred more than 100 years ago. One of her recollections, she says, is the massacre of the Ja-nissaries more than a century age, her son being among the famed warriors who were killed off by Sultam Mahmod, when he feared that their power was too

great.
Faima Hanum's ten children are dead, but she has many great-great-great-dehildren living and one 4-year-old great-great

WISCONSIN STORM

KENOSHA (Wis.) March 20,—One killed and thousands of dollars in property damage was the toil of the sleet storm that struck Kenosha county late last night and today.

Joseph Pluta, 45 years of age, was electrocuted when he tried to lift a live wire from the front humper of his car after he had run litto a fallen telephone pole about 4 o'clock this morning. Alex Marcinkus was asleep in the back seat of the car at the time and did not know what had happened until the police awoke him two hours later when they learned of the accident.

Several villages in the county were cut off from communication, with the outside world by telephone when wires were down in every direction. Trees were down all over the city but no one was reported injured.

BERLIN, March 30. (P)-

The fall of the city to the southern, or Nationalist armies, had been looked for momentarily, as the northern forces had been hard pressed the past week, and one by one strategic points fell into the hands of the attacking army.

The Nationalists also have done much "boring from within," at Shanghai. As the Nationalist troops came nearer the prize city, agitators became active, and only a few days ago a general strike was called to last until the Nationalists captured Shanghai. The strike in Shanghai last month was attributed to Cantoness agitators. It was quelled largely by the drastic method of summarily beheading agitators.

ON GUARD 20,000

The foreign forces available for the protection of the international settlement in Shanghal number about 20,000 trained men, the greater pertion of which are British.

The American force consists of 1800 marines and 2000 blue jackets, but these men so far have been kept aboard United States warships and transports in the harbor.

The Japanese have 3000 fighting men in Shanghal and the French a somewhat smaller force.

Twenty-one warships of five foreign countries are lying off Shanghal ready to protect foreign lives and property.

SIMPLE MOVE
OUTWITS DEFENDERS
LONDON, March 20. (P)—The sudden sweep of the Cantonese forces from the south of Shanghai was made by a simple fianking movement on the regiments of the old army of Sun Chuan-Fang, erswhile defender of the city, which had been left to hold what appeared a perfectly safe section of the line near the sea ten miles south of the city, says a dispatch from Shr Percival Phillips to the Dally Mail from Shanghai.

The dispatch pictures the rabble of the routed army retreating on Shanghai, the soldiers foriorn and stragging through the fields and roads under no authority. Most of the Shantung leader, Chang Tsung-Chang.

The soldiers were incredibly ragged, dirty and footsors, their uniforms hanging loosely, the garments held together by pina, adhesive tape and string, while frayed strips of cloth served the purpose of shoes.

#### BULLS NEED NOT WORDS OF PARISIAN BARBERS CARRY WEIGHT WITH WOMEN

PARIS, March 30. (P)—Barber's influence over women is worrying some Pails parlor philosophers. Bobbed hair is to biams. Thousands of women who never before went to a hair-dresser now are regular customers.

There are esclusive salons de coiffure for the few, but the ordinary women or girl goes to the barber, shop to have her hair trimmed. Barbers have the reputation of being talkstive. They suggest tipe on the races to men. They have their lides on politics. They do not seem average and more away from house on politics. They do not seem average and more away from house on politics. They do not seem average of their conversable with the world the manual of the races to men. They have their lides on politics. They do not seem average as the barber as potently mightier than either the pen or the sword.

ering the calendar year 1926 does not list the sensot amounts of stock held in this and that corporation, and custodian officials feel that to make public individual holdings of even total holdings in a certain corporation would be to betray a trust imposed in them by law. They treat such matters as highly confidential, like any other trust company would be forced to do if, they say, some one sought the amount of an individual's holdings in its care without due process of law.

tinuance of uneven commercial conditions, the situation, in its larger aspect, discloses a favorable trend, The circle of wrpansion, following the heritation of the early weeks of this year, is gradually widening, and in a number of instances there is a distinct gain. In quarters where the expected increase in activity has thus far falled to appear, or is but faintly visible, there is a matural disappointment, yet certair of the so-called barometric trades are moving forward steedily. Conspicuous among these is the great steel industry, whose property means much to business generally, and the recent progress in that channel reflects, in turn, a betterment in several other manufacturing lines. This is shown by the fact that the enlarging demand for steel comes from diversified sources and is not wholly the result of the needs of the biggest consumers, such as railroads, automobile and building construction interests.

EGULATION OF HOUSE BENTING NEW MEANS OF CHECKING WEDDINGS

BERLIN, March 20. (P)-Cupid has en altogether too active in Albers-dier, Rhénish Palatinate, to suit three or four lovers' matches for ev-

ried couples.

As a consequence the majority in the local council has tried to put a check on the rush of young men to the altar. The members have decreed that any man who married under the age of 25 years shall not be entitled to their assistance in the matter of finding a dwelling-place for himself and brids. As the letting of unfurnished apartments and houses is conducted through an official department which keeps a strict roster of applicants, their decisions would seem to be. In theory, an effectual bar to

arrimony. Going elsewhere is no solution for the housing shortage is universal in ermany. There remains only one ting for them to do—to build a buse for themselves, which is just actly what the Albersweller country wants them to do.

#### COPPER QUEEN PUTS **OUT OLD EQUIPMENT**

DOUGLAS (Arts.) March 20. (Exclusive)—Two reverberatory furnaces, with their battery of separately operated roasters, have gone into the discard at the Copper Queen amelter, following the great blest furnaces that were overtaken by the progress of metallurgical science. They have been succeeded by two new reverberatory units, equipped with superimposed roasters of double the old size and capacity. Sconomy will attend the new order, for shout 100 smelter hands have been dropped.

# MEETS CARDS THURSDAY

started pounding the ball right on the nose with might and main, figuring that the obvious thing to do was to rely on speed rather than attempt to outsteady the Berkeley girl. The first game proved to be a marathon contest in which the two girls played sixteen points before Miss Williams broke through the northern girl's service to win.

Miss Wills retailisted by taking Miss Williams service in short order, but Miss Williams threw the crowd in a turnool by taking the third game. Here Miss Wills manifestly decided that somebody ought to put a stop to the unseemly proceedings and ahe swept through her opponent's service for a love game to even the count and then ran out the next four games for the set, despite the desperste play of her opponent.

Having once hit her stride the Berkeley girl never let up for an instant and took the first two games of the next set before a desperse rally by Miss Williams gave her the third game. The fourth game was another hard struggle, but Miss Wills was deadly accurate and her sharp shooting to the corners of the court (Continued on Fage 2, Column 3)

# SPRING TRAINING POLO THRILLER WON BY MIDWICK

ATLANTA (Ga.) March 20. (P—
Trade winds continued to sweep
major-league baseball training camps
today and involved a couple of stars
and one not so well known, but held
by many to be of much promise.

Reports had it that "Ruddy" Ruel,
Weshington catcher, and "Stuffy"
Elewart, utility infielder of the Senators, would go to the St. Louis
Browns and that Wallie Schang, vertran receiver, would come to the
Nets in exchange.

Clark Griffith, president of the
Senators, and Bucky Harris,
manager, were in conference with
Dan Hewley, pilot of the Browns
at St. Petersburg, but just what
transpired was not divuiged. Howley is known to be anxious, however, for more infield material
and Stewart, an excellent base
runner and finished fielder of
the Southern Association, is said
to have caught his eyr. On the
other hand, Ruel held out for
more money for some time this
season and Griffith has indicated
that he believed he was paying
the steady lawyer-catcher more
than he was worth. Incidentally,
Ruel's home is in St. Louis.

The St. Louis and Washington
heads were in St. Petersburg during
the day along with many others of
baseball's front rank on the cocasion
of a celebration to Al Lang, formerly
president of the Florida State League
and long a figure connected with
major-league baseball.

As for exhibition games in Florida
the day was quiet, with only one

#### Former Secret Service Worker Held for Trial

# Take command of a OMMANDER

Now \$1585 f.o.b. factory, including front and rear bumpers, 4-wheel brakes and snubbers

We offer to lend you this new Big Six Studebaker Brougham to test for yourself. It will out-speed, out-climb, and out-live any car within a thousand dollars of its price

THERE are no strings on this offer. You take a Commander. You drive it. You add Studebaker by what the car does in your ands. No obligation except to tell your

Only by having scores of motorists in this ity drive this high-spirited automobile can se win public appreciation of Studebaker's moderful achievement.

## You knew this-

ndebaker dependability has long been mited universally. The grace and beauty sudebaker's custom cars have won general

-but not this! But the public does not yet realize that budebaker performance is now far in advance

> We proved it—now you prove it yourself On Studebaker's Proving Ground we checked The Commander against competitive cars—satisfied ourselves by exhaustive tests that it would out-speed, out-climb and out-live any other car, six or eight, selling for less than \$2500. Now we invite you to sit behind the wheel yourself and prove The Commander's surpremacy.

Match The Commander against the finest motor cars. Note how it idles along smoothly in high gear through traffic jams but flashes ahead the instant an opening appears—5 to 40 miles per hour in 18.4 seconds!

#### 70 miles an hour-easily

Out on the open road—feel the thrill of all the speed you want—The Commander will do 70 actual miles an hour with no sense of strain on the engine. Other cars may attain speed, but The Commander can maintain it for days with unmatched smoothness.

#### Safety plus

New standards of safety, at any speed, result from clear-vision all-steel bodies swung low to the road, matchless four-wheel brakes, and the finest steering mechanism ever devised.

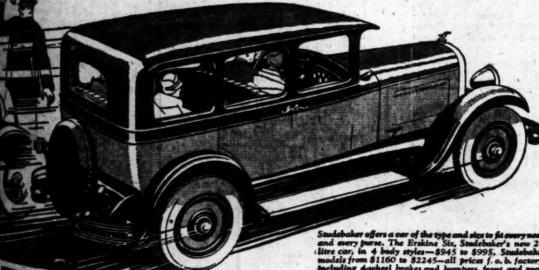

Think of all the above advantages, while you are driving The Commander. As you find them you will learn why the Big Six shattered all previous transcontinental motoring records . . . even beat the schedules of the crack Limited trains.

#### And at a One-Profit price

When you consider the low price which One-Profit manufacture has made possible for The Commander you will realize why the Big Six far out-sells every other car in the world of equal or greater rated horsepower.

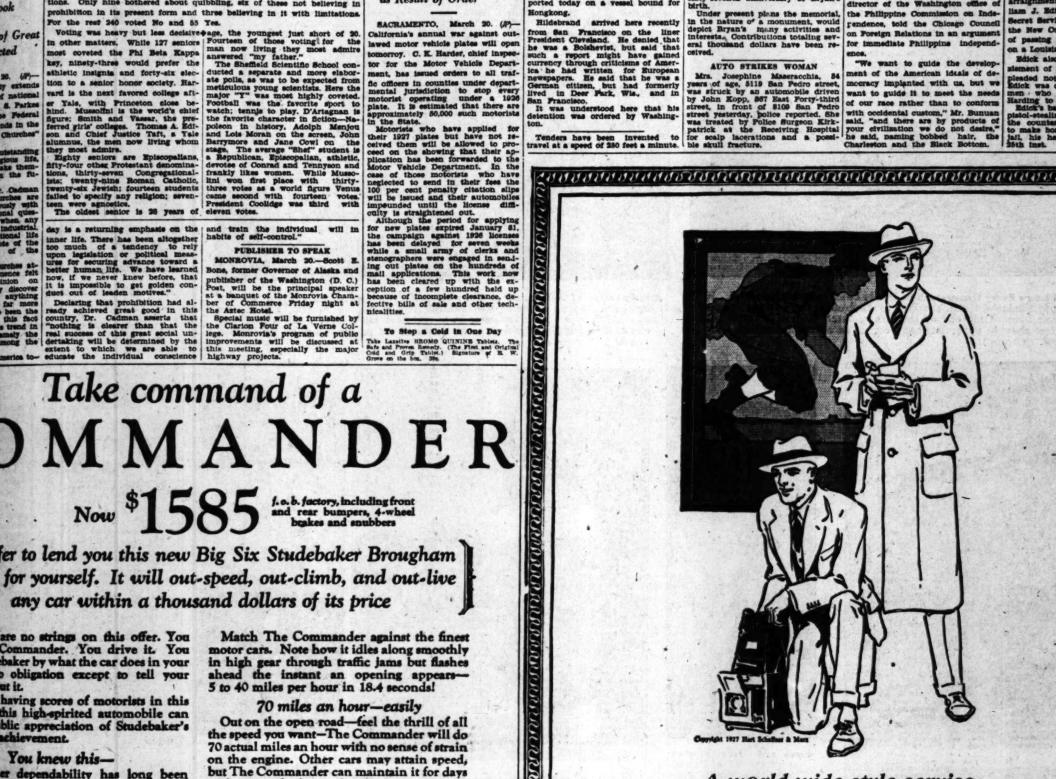

The Commander is waiting for you. Try it out—no obligation!

A friend or mine, sar. Terry O'sullivan," was Maggie's formula of introduction.
"Maggie Toole's got a fellow at
last," was the word that went 'round
among the paper-box girls.
The girls besieged her for introduction to her "fellow." To Terry O'Sullivan the honors of the evening fell
thick and fast. He waltzed twice in
succession with the paper-box girl
that Dempsey was the leader of the association. He wore a dress ruit, and
could chin the bar twice with one
hand. He was one of "Big Mike"
O'Sullivan's lieutenants, and was
never troubled by trouble. No cop
dared to arrest him.
The music stopped. The denocre
scattered to the chairs along the
walls. Dempsey intercepted O'gullivan
in the middle of the floor.
"One moment, Mr. O'Sullivan," said
Dempsey, "I hope you're enjoying
yourself. Where did you say you
lived?"
"I live on Orand," said O'Sullivan,
insolently.
"As a rile," went on Dempsey.

# PRONEL

every claim made for Ethyl Gasoline

HE Dayton (Ohio) Power and Light Company was the pioneer user of Ethyl Gasoline on a large scale. It began operating its fleet of 128 trucks, commercial vehicles and passenger cars on Ethyl Gasoline in June, 1923. Here are the results of more than three years' experience:

Greatly improved car perform-

Running cost reduced.

Average period of valve grinding lengthened.

No carbon removal from cyl-

Fewer repairs Cooler engines.

Cleaner spark plugs

Read the Dayton Power and Light Company's letter which is reproduced here. Then enjoy, the benefits of Ethyl Gasoline rourself

THE DAYTON POWER & LIGHT COMPANY SO SOUTH JEFFERSON STREET DAYTON, OHIO

Sthyl Casoline Corp., 28 Broadway, New York, N. T.

After having used Ethyl Gasoline for over three years and having kept a very careful check on results, I believe you will be interested to know of our experience.

The Dayton Power and Light Company commenced using Ethyl Gasoline in 1925 in its fleet of passenger and commercial vehicles, has been using it exclusively ever since, and believes that the very substantial reduction in cost per mile, which has been made since them, has been due in great part to the use of Ethyl Gasoline. The savings are the result of greatly decreased mintenance and repair cost, and increased availability of equipment and other factors of oconomy.

We operate 128 motor vehicles which cover a total of about 1,100,000 miles a year. Carbon eleaning in a fleet of this size, operated on regular gasoline, is always expensive as well as a major problem. This work became entirely unnecessary after we began using Ethyl Gasoline. With the elimination of earbon eleaning a great reduction in other repairs coincident with it was accomplished. Under the old system whon the head was removed from the motor the mechanics frequently made other adjustments, such as grinding of valves, etc., when not necessary. This decreased repair time at once reflects itself in increased working hours of the car and drivers, in addition to the empense of making the repairs.

Since using Ethyl Gasoline the fouling of spark plugs and everheating have been eliminated. This is because the motors run socier on Ethyl Gasoline than had been the case on ordinary fuel, and today the average valve grinding period in our care is considerably better than prior to the time we began using Ethyl Gasoline.

Our equipment consists of a number of different types of automobiles ranging from small passenger cars up to heavy trucks, and the very satisfactory results described were found in each type irrespective of make.

I am glad to add that the drivers are well pleased, their labors are lightened through less gear-shifting, smoother run-ming and more easily handled cars, and they report greatly im-proved ear performance in general.

Cordially yours,

a of Camelia

Manager of Electrical Division,

Complete freedom from the annoying and damaging "knock" -no need to clean out carbonextra power resulting from the increased pressure that carbon causes less vibration-less gearshifting — a smoother, sweeter engine.

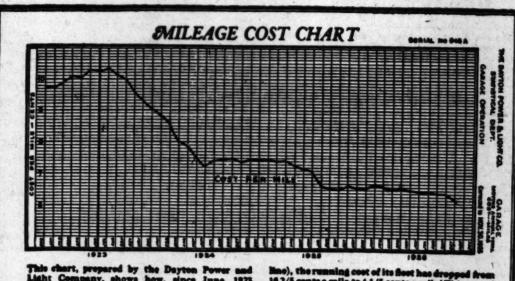

These are claims based upon fact. Proved by hundreds of thousands of car owners. Proved in tests over the steepest hills, over the worst roads, under all driving conditions in all seasons.

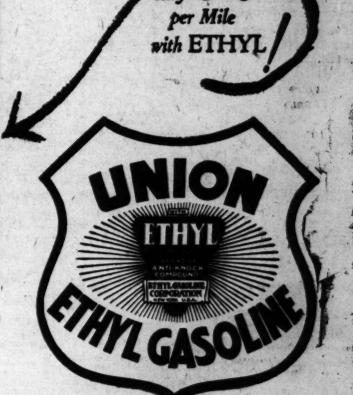

Don't go another day without the advantages of this superior fuel. Developed by the great Research Laboratories of General Motors. Used by racing car drivers. Used in U.S. Naval aircraft. And now available to Pacific Coast motorists at pumps which display the trade marks shown below. Only three cents a gallon more. Fill your tank today.

#### United Metals Rehabilitating Old Carlisle

CLIFTON (Aris.) March 80. (Exclu

eive)—Under Alfred Strong Lewis, secretary and manager of the United Metals Corporation, forty men are working on rehabilitation of the old Carlisle property, thirteen miles east of Duncan. President Roland Blanchard of Bisbee is engineer for the mine and the mechanical work is directed by P. E. Boswell, who is treasurer of the corporation.

New pumping equipment is helping in unwatering the property, the shaft being retimbered where needed. No repairs were found needed on the 166-foot level. The first work is to be despaning by at least 200 feet a winne that was sunk 127 feet below the 500-foot level. It is expected that the question of cheap power will be solved by the erection of a power-house at Duncan, on the Clifton branch of the Southern Pacific.

The following information is contained in a letter to us from Mr. Walter B. Lasher, President of the Company i

American Chain Company, Inc. is the largest manufacturer of chain in the world. Directly and through subsidiary companies, it manufactures for widely varied uses practically every size and kind of chain, from small chain for the jewelry trade to large ships' anchor chain. The company likewise manufactures a considerable variety of related lines, including forgings, merchant bar iron, rods and wire, who strand and rope, cable, steel and malleable castings, valves, harness and saddlery items, fence, and railroad and automobile specialties. Among its products are Weed tire chains, of which it is the sole manufacturer and distributor.

Since inception of the business in 1912, annual sales have increased from approximately \$500,000 in the first year of business to approximately \$26,500,000 in 1926. The company sells direct through its own salet organization to jobbers and large consumers throughout the United States. It also does a tonsiderable consumers.

In 1926 the company acquired 93% of the outstanding shares of capital stock of American Cable Company, Inc., the raw material requirements of which can largely be supplied by subsidiaries of American Cable Company, Inc., manufactures an extensive line of strand, cable and wire rope, and it supplied all of the wire and cables for the Philadelphia-Camden bridge, the long-set suspension bridge in the world.

EARNINGS oradidated net earnings of American Chain Company, Inc. and subsidiary companies, before divi-mits, during the four years ended December 31, 1926, after all charges including interest and Federal name taxes, as certified by Messrs. F. W. Hilditch & Co., accountants for the company, were as follows:

Year ended December 31 1925 .....\$2,382,863 1926 ...... 2,414,891

Earnings as above shown include the results of operations of American Cable Company, Inc., from the date of its acquisition, January 1, 1926.

reare annual net earnings for the four-year period, as shown above, were \$2,411,776, or more than the times the maximum annual dividend requirement on preferred stock presently to be issued. The deducting from such average net earnings the annual dividend requirement on \$11,000,000 parties of preferred stock, there remains \$1,641,776, or more than \$6.50 per share on 250,000 shares of minon stock now outstanding.

PURPOSE OF ISSUE The proceeds of this issue of \$11,000,000 par value of preferred stock will be used for the redemption, at per share, of the 8% Class "A" Stock of the company of the par value of \$25 per share (\$8,503,575 per value now outstanding in the hands of the public) and for other corporate purposes.

Statements herein are in no avent to be construed as representations by un

We offer this preferred stock, less amounts exchanged for outstanding Class "A" Stock of the company and/or subscribed for by holders of such Class "A" Stock, for delivery if, when and as issued and accepted by us, subject to the approval of legal proceedings by counsel. It is expected that delivery will be made on or about April 1, 1927, in the form of temporary stock cartificates of the company or interim receipts of Dillon, Read & Co.

Price \$100 per share and accrued dividend.

The above is subject to a circular, containing further information, which may be obtained upon request.

sive)—Twenty-three wells were spud-ded in by the Huastees Petroleum ded in by the Huastees Petroleum Company last week, and work on six more locations was started. The Huastees now has forty-nine strings of tools running. Mexican Petroleum Company resumed operations in full last week, starting twenty-six wells which had been shut down, while the Mariand interests put seven strings of tools at work in the Limon field. Notice was given to the Mexican Petroleum Company that inspectors would be en hand, which makes it apparent that this work is being done with full government authority. The companies and the Mexican government appear to have reached an unwritten understanding under which the companies are proceeding with confidence.

enfidence.
Successful completions last week
sere as follows: East Coast Oil
ompany (Southern Pacific Railway) Company (Southern Pacific Railways a 800-barrel well in Laguna de la Milpa; New England Fuel Oil Company, a 800-barrel well in Caballero; Maxiean Eagle Oil Company (British Shell,) a small producer in Potrero. International Petroleum Company (John Hays Hammond interests,) a 800-barrel well in Corcovade.
Oil experis from Tampiec during Pebruary totaled 4,514,983 barrels, a decrease of 850,000 barrels from the

decrease of 559,000 barrels from the previous month. These are the lowest figures since 1914. The Huastee Petroleum Company was the only shipper exporting more than 1,000,000 barrels. During its days of peal production the Tampico area produced about 22,000,000 barrels monthly.

#### Second Test of Milham May be Giant Gasser

second test wall in the Buttonwillow district southwest of here has been essented at a depth of 2000 feet, where an eleven and one-quarter-inch string of easing was landed. Heavy gas pressure indicates that the test may be a giant gasser such as was encountered by Milham last fall, when its No. 1 well blew out and caught fire.

Extreme caution is being used in the handling of the well. Despite the tremendous gas pressure, there have been no indications of oil, and it is beligred that the company is planning to commercialise the natural gas.

The well is on the same and t

gas.

The well is on Sec. 8, 28-28. According to reports from the Button-willow district, the California Petroleum or the Doheny interests are planning to drill within a short time on Sec. 12 in the same township and

Buckeye Plans Mill and Ball Spur at Arizona Property

BUCKEYE (Aris.) March 30. (Exclusive)-A large mill and a long spur connection with the Southern Pacific main line at Siding Pour, are reported to be in the plans of the Buckeye Mining Company, which is Buckeys Mining Company, which is developing a low-grade copper prop-erty at a point about twenty-five miles southwest of Buckeys.

A dozen men are on the ground, constructing a camp in which the buildings are being erected of con-crete blocks. A three-compartment shaft is to be sunk, following tests of the ground made last year.

ANGELENO LEASES

TRACT AT MARICOPA

MARICOPA, March 20. (Exclusive)

B. Whiston of Los Angeles has leased from Albert H. Hayes eighty acres seven miles southeast of Maricopa on Section 8, 11-23. It is a government-permit proposition and carries an il 2-5 per cent overriding royaity. A rig is now being erected on the property and drilling will start by April 20.

# WHAT ABOU'

Too soon to tell. But it looks good. Any strike that runs up into the thousands per ton that way sets crazy notions running around in your head. You just can't help seeing Rolls Royces, fine houses, trips to Europe and such things.

No, I don't blame people for flocking to Weepah like flies around a molasses jug. There's money there. Sure as Fate, it looks like some fortunes in that district for the lucky ones.

And money means all the things we all want, leisure and luxury and all that. And we're really entitled to them. Yes, sir, we're all entitled to everything that makes life better and happier, every man and woman of us. If we don't get it, it's our own fault. That's my idea and I'll explain some day why I think so.

But about Weepah. A lot of folks are going to make money there, in my opinion. And all of them are going to have a lot of fun and excitement and a good run for their money. And what anyone makes don't hurt anybody else—that's the good part about mining.

Too soon to tell, however. Maybe if I was younger and wasn't so busy at Gold Roads, I'd be hitting the trail for that speck on a prairie dog's tail myself. Anyway, I sent an engineer up there to get me the facts. I think that much of it.

But don't lose your head. I've seen lots of high-grade camps flare up and "fade away" quick, as they say in the movies. Maybe Weepah'll be different. Maybe it'll be a real

Give me lower pay dirt and plenty of it for mine, like the Tom Reed and United Eastern, and I won't envy all the high-grade grubbers in the Rockies. No, sir; it don't hurt my feelings any what high-grade there is elsewhere. Give me two or three-foot veins running anywhere from ten to twenty-five dollars a ton and extending a mile or two and I'm satisfied. I'll show you some real gold, sure as Fate.

I've done it before right here in this Gold Roads-Oatman District, and I never had anything like I got now. Not in my opinion. Fact is, this Gold Roads property of the Great Bend Mines Company, of which I am president, is just about the best proposition I've ever seen for sure, big returns. And I've seen a lot of them.

Thousands on thousands of tons of lowgrade day after day and month after month, and no danger of pinching out; that's the sort of mine I like and it's the sort I believe will pay big dividends to investors for a long time to come.

That's the sort of property the Great Bend Mines Company has in this Gold Roads Mine, and if I don't equal or beat the records of some other big producers I worked in this district, I miss my guess. And I ain't missed many times, Friends; not lately.

So my advice is, Keep your eye on Weepah, which I'm doing myself. But don't overlook the opportunity right at home. I forgot to say I can mill this ore dirt cheap. Got a fine mill, too.

Your friend,

GREAT BEND MINES COMPANY

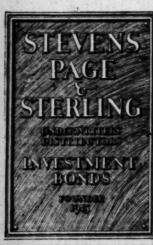

P.S.—Take a tip from an old timer. See your broker about Great Bend. It's listed on both the Los Angeles and San Francisco Stock Exchanges. Present price around 55. Watch her go.

CRAFT UP FOR REPAIRS

CRAFT UF FOR REFAIRS

The Hawk incidentally came to Bethlehem yards yesterday for repairs following a game of hide and seek, in which a whale lured the pursuing craft upon a submerged rock in southern waters. She will be laid up several days.

Reports indicate unparalleled success to date for the Mexico Whaling Company's fleet, which had reduced 13,000 barrels of oil to yesterday, and expects to return here in June with 25,000 barrels to show for the season. The Vega fleet is reported not to have done quite so well, and the mother ship Kocandoren II and two killers are expected to feturn to Norway early in May. Its three other killers will base at Los Angeles indefinitely.

Modern whaling out of Los Angeles, a development of the last three years, and largely through the instance of Capt. G. N. Bryde, is the sequel to a similar enterprise which flourished here sixty years ago.

MORE PROFITABLE NOW

Half a century ago the fleets abandoned California waters as being depleted. Now they are reported more prolific than ever, and with modern ships and guns the enterprise is correspondingly more profitable. Incidentally, a large amount of their output now finds a ready market right among the factories of Los Angeles.

There are indications that importance are indications are indications are indications are indications.

geles.

There are indications that important capital is looking favorably on the industry and that new alignments ordaining greater things for Los Angeles as a base are imminent.

# Women of today use Cabs

In the busy life of Los Angeles, women more and more use Yellow Cabs.

A Cab gives you all the advantages of the automobile plus many others, including the services of a competent, uniformed chauffeur who knows the best ways around in traffic.

When you take a Cab you avoid all the disadvantages of driving your own car through city traffic, of hunting a parking space, of walking blocks through crowds, of worrying about the parked car and the parking limits.

Simply phone Dunkirk 50-50. The Cab comes at the time you say. You do not pay for the trip to your starting point you pay only for your use of the Cab after the driver announces its arrival. You ride privately, comfortably. You

don't waste time parking a car. Take friends with you, without extra charge. One to five people can ride in a "Yellow" for one single fare.

And the cost is little; 20% for the first 1/2 mile, 10% for each 1/3 mile thereafter. A Yellow Cab is the best in modern

city transportation.

Federal Engineer's Office Submits Five Points

Government Fund Will Be Used in Dredging

Narrow Channel Opening to Be Made Wider

An appeal to all organizations of An appeal to all organizations or persons directly interested in the government's plans for the extension of the San Pedro breakwater, for which the government is pledged to pay half the costs, to make written

munications commenting on the pro-posed plans incorporated in the five points be written in triplicate and delivered to the United States Engi-neer's office, 725 <sup>§</sup> Central Building, Los Angeles, by the 30th inst. BRIEFLY SUMMARIZED

The five points upon which the overnment engineers seek expres-ion, briefly summarized, are as fol-

sion, briefly summarized, are as follows:

(1.) Obtain title to the water front on both sides of Cerritos Channel for a length of 1500 feet at such location to be approved by the Secretary of War and reserve it from development to the end that this section of the channel be used as an approach to Terminal Island.

(2.) Contribute one-half of the first cost of the breakwater, tentatively estimated at \$14,000,000.

(3.) Organize a port district or equivalent organization embracing the cities of Los Angeles and Long Beach for development of the port and port facilities and administer plans of development as the need arises. CHURCH LAID BY DR. ELIOT Son of Famous Educator Officiates at Unitarian

Rev. F. Burdette Backus, pastor of the church from a small beginning on Seventh street between Broadway and Hill street, where the congregation carried on its worship for many years. Dr. Eli Fay was its first minister, he said, and he gave an interesting account of the church's early history in Los Angeles.

At the close of the program, the corner-stone was laid in place by Broad and Dr. C. Ross for their efforts in making the new church a resilty and be be for the corner-stone ceremony and will remain to attend the triennial Paridic Coast Conference of the church to be held at San Francisco, a resilty in the congregation extended a vote of the corner-stone over the corner-

VALLEY HAS
EXTENSIVE
PARK PLANS

Roscoe and Vicinity Map
Extensive Areas to be
Acquired and Developed
Residents of Roscoe and nearby neighborhoods of San Fernando valley have adopted an extensive program for playgrounds and parks to be acquired by assessment district proceedings. Five sites, with a total of ninety-seven acres, have been seproceedings. Pive sites, with a total of ninety-seven acres, have been selected and have formally been approved by both the playground and park commissions. These sites are:

Twelve acres at Roscoe, across San Pernando Road from the Roscoe public school. Fifteen acres at Stonehurst, two miles north of Roscoe, on Wicks avenue, near Wealtha street. Twenty acres on Vineland avenue at Vineland public school, one mile northeast of Roscoe. Ten acres on Wicks avenue and Webb street, two miles northwest of Roscoe. Forty acres on Hansen street and Wornom avenue, two miles northeast of Roscoe.

For playground purposes the play-ground department has recommended the allocation of the site at Roscoe, five of the fifteen acres at Stonehurst and seven of the twenty acres at Vineland as well situated for recrea-tion work.

SIX BATHERS LIFEGUARDS

Hundreds Throng Venice Beach and Venturesome Swimmers Go Too Far Out

Venice Beach yesterday, ventured too far beyond the line of breakers and at various times were

rescued by municipal lifeguards, according to reports made to the Venice police department.

Will Harrison and W. E. Oliver, visitors from Decatur, Ill., were the first swimmers to get into difficulty. They were reported in distress off Brooks avenue and brought to the beach by Lifeguards Wolf, Starnes, Hieser and Officer Reese. Warren Rowalt of 821 South Lake avenue became exhausted while swimming 100 yards of shore, but was saved by Frank Hirst of Culver City, who assisted the disabled swimmer to a life buoy. Both men were brought to the beach a few minutes lajer by lifeguards.

# FIRES KEEP FIGHTERS BUSY

Twenty Cars Destroyed in \$90,000 Garage Blaze; Candy Factory and Planing Mill Burned

mates, by three fires late Saturday night and yesterday. In these blazes a planing mill at Van Nuys, a garage at 407 Moline street were destroyed and a double building at 109-11 South Utah street was seriously damaged.

Fighting the garage fire, Fireman due to drums of blazing oil which Fenny of Engine Company 8 burst at intervals, and the heat and Ralph Kenny of Engine Company & | bu stream of water and slightly injured. He was treated at Receiving Hospital.

burst at intervals, and the heat and dense volume of smoke. Twenty automobiles stored in the garage, operated by Ballinger's Service Station and Carage Company, were destroyed and many others were damaged. The loss here was estimated at 800,000. Next door to the garage is the plant of the Los Angeles Pireworks Company, where quantities of explosives were said to be stored, but firemen working on top of the garage prevented the spread of flames to this building. Police were called to keep back a large crowd.

The garage fire originated, police said, on the second floor of the building, cocupied by the J. C. Cox Pishing Tackle Company. The cause was not determined.

A few minutes before this fire started, fire was discovered in the plant of the B. McKenny Candy Company, occupying half of a two-story frame building at 109-111 South Utah street, the other half of which was used as a dwelling by two families. The fire was confined to the candy factory, but the dwellings were damaged by smoke and water. The damage was estimated at more than \$10,000 by firemen and M. Millich, owner of the building.

The Van Nuys Planing Mill et 6103 Cedros street, Van Nuys, operated by Carpenter Brothers, Inc., is believed to have caught fire from sparks from an incinerator. This plant covered an acre of ground, and the brilliance of the flames in the night attracted a great crowd. Plant and stored lumber valued at \$50,000 were burned.

mons Diamor

gregation, now consecrating our-selves anew, dedicate this entire selves anew, dedicate this entire building in the name of the Pather building in the name of the Pather and Son and of the Holy Ghost."

Musical selections were sung by the choir, with solos by Mrs. Shirley shifternia and Theophilus Fitz.

At the morning service Dr. Buchanan spoke on "Have Faith in God," which was the text used by the church's first pastor, the late Rev. B. F. Coulter, for his initial sermon after he had founded the church in 1895. The original edifice, which was known as the Broadway Christian Church, stood opposite the present site of the Los Angeles County Courthouse. The founder, Rev. Coulter, occupied the pulpit from its foundation until 1911, the year of his death.

The new structure was serviced at a contract of the county of the county

foundation until 1911, the year of his death.

The new structure was erected at a cost of more than \$100,000, on a site which alone is valued at more than \$50,000. It contains one of the finest pipe organs in the United States and a set of chimes costing more than \$10,000, the gift of Mrs. Mary Bowman. Mrs. B. F. Coulter also contributed largely toward the building as a memorial to her husband and numerous other persons helped the fund with liberal donations.

Bervices will be held every night this week, excepting Saturday.

City Attorney

Councilman Hughes, chairman of

in Happy Mood Amid Sunshine Miss Glorious Spring arrived in Los Angeles at 12:01 a.m. today

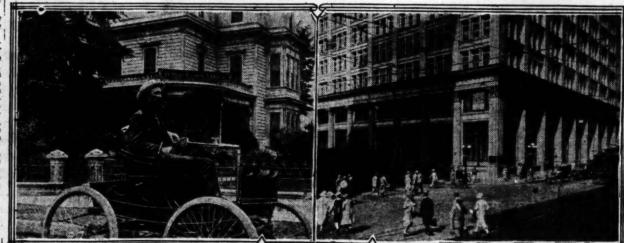

for her annual visit, just as Old Man Winter, with his hot-water bottle tucked under his arm, was taking his departure. "You know,"

Spring Arrives

my way, I would stay here all the time!"

This was too much for Pop Winter who turned angrily 'on his rundown heel and snarled: "Well, it seems to me that you do spend most of your time here! You've got me so balled up with my work that I don't know half the time whether you're in charge or I. A fine chance a man's got to run his own business with some flapper horning in all the time with her esthetic notions! I have a harder time selling my stuff in California than anywhere else on earth—not even excepting Florida! Au revoir—and I hope you get sand in your one-piece bathing suit!"

# Yesterday! - The ROMANCE of LOS ANGELES - Today!

BACK in 1903, when busy Angelenos sought surcease from the stress and turmoil of business, they were wont to find quiet and sectusion in the remote vicinity of Seventh and Spring streets. Here could be found wide open spaces for from the madding throngs, and here the city's aristocrats dwelt in mansions surrounded by spacious lawns and gardens. One of these was the 1. N. Van Nuys home, a show place of Los Angeles at that time, shown on the left as it appeared in 1903. A view of the same corner as it is today offers a striking illustration of the changes that have been wrought in less than a quarter of a century. (Photographs through courtesy Security Trust and Savings Bank.)

reservoir and just below a dangerous
right-angle turn that has been the
undoing of several motorists within
recent years.

right-angle turn that has been the undoing of several motorists within recent years.

Mrs. Elliott reported the machine stolen to the police department on December 30, last, when it was but a few days out of the dealer's show rooms. Yesterday, when it was hauled up a steep bank by a truck commandeered by C. W. Patton and W. L. Lanier, city water bureau workers, the paint was missing in many places indicating to Detective Lieutenants Hickey and Stevens, investigating officers, that it had reposed in its watery bed since possibly the day of its theft.

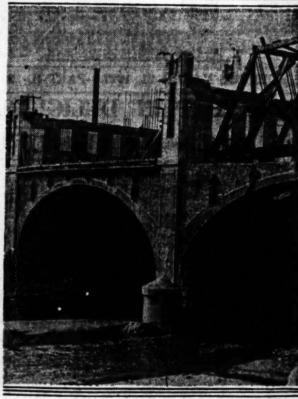

The road above the reservoir where the car was found is known as "Petting Row," where nocturnal trysts are frequent.

There also is a possibility, the officers declared, that the thieves pushed the machine into the reservoir to avoid leaving any clews to their identity. Last December the water at this point was more than sixty feet deep.

BAG THEFT REPORTED

BAG THEFT REPORTED Mrs. Lydis A. Williams of Maw-thorne yesterday reported to the po-lice that a black leather handbag containing her marriage certific deed and some theater passes stolen from her automobile at teenth and Figueroa streets.

Time-Saving Machines Are in Running Order for Comes Up Today National Exhibit

National Exhibit

What was declared to be the finest array of time-saving business machines ever assembled was put through their reliminary tricks yasterday in the Ambassador auditorium, making ready for the opening at noon today of the National Business Show. Each machine was kept in rehearsal until it ran like a clock, for the inventors, laboratory scientists and efficiency experts from the home offices were present to see that all functioned perfectly.

Devices for performing every conceivable tranaction in the business office, the retailing establishment or the shipping room were on view. There were bundle tiers, inventory machines, grocers' scales, power adding machines, electric typewriters and numerous other mechanisms designed.

noon today of the National Business Show. Each machine was kept in rehearsal until it ran like a clock, for the inventors, laboratory scientists and efficiency experts from the home offices were present to see that all functioned perfectly.

Devices for performing every conceivable tranaction in the business office, the retailing establishment or the shipping room were on view. There were bundle tiers, inventory machines, grocers' scales, power adding machines, electric typewriters and numerous other mechanisms designed to rush business affairs. One machine did the work of fifteen typists. It was declared every possible mechanism was there with the exception of a device to masticate the office boy's chewing gum.

Business executives and owners from all parts of the Southland have been invited, while another coterie of visitors represents the experts, who are here to put the machines and systems through their paces. A mational efficiency congress is scheduled to be held, according to Frank E. Tupper, the show's president, by the experts before the event ends Saturday night

One of the interesting arrivals yeared and the season's invention of the dictaphone and talking machine.

the chief speaker yesterday morning at the formal opening of the Messiah Evangelical Lutheran Church at Manchester and Budlong avenues. The new church, of which Rudolph Meyer was architect, is of Spanish stucco style, and the entire plant represents an investment of more than 325,000.

Miss Ida A. Rossler addressed the Sunday-school class at 9.30 a.m., and services in the evening were conducted by Rev. William Lange of Inglewood, who substituted for Rev. John H. Peters, the pastor, who was said to be ill. Dr. Peters organized the church in 1928 and built the membership up to 140, with a Sunday-school enrollment of 150.

Musical numbers were given by the Pickel orchestra, and the edifice was decorated with palms and flowers. There will be a formal dedication shortly after Easter Sunday, it was announced.

CALLS LYDIA FIRST

CONVERT IN EUROPE

"Rev. A. I. Hill, pastor of the Highland Park Christian Church, preached yesterday on "Europe's First Convert." He said in part:

"The Apostle Paul and his evangelistic party had been touring Asis Minor, when they received the Miscedonian call to come over into Europe. Probably the first Gospel sermon that was ever preached upon European soil was delivered by Faul in the city of Philippi. The first European convert was a sales lady named Lydis. In the face of strenuous competition, she evidently made a practice of closing her shop on the Sabbath. Though there was no synagogue in the city, she, with a few other faithful women, attended a prayer meeting by the riverside. It was here that she heard the messagers of Christ. Lydis was a woman of business ability, good judgment, openmindedness, sincerity and decision and she exercised these traits in the matter of religion, as well as in busitation of religion, as well as in busitation of religion, as well as in busitation and site of religion, as well as in busitation of the lower of religion, as well as in busitation of the lower of religion, as well as in busitation of the lower of religion, as well as in busitation of the lower of the light that the story is that notion in the steril and provide and support of the steril and provide and intolerance. Beview as mence and a danger to the king-trough his shrewd and alty manifests itself. "Haman, the arch enemy of the service of convert."

# In St. Louis

THE people of Los Angeles are fortunate in enjoying low electric rates for domestic use and your electric companies are to be congratulated on their successful effort to maintain low rates.

But few large cities, if any, enjoy as low electric rates for general domestic use as does St. Louis, Mo.

In the interest of accuracy, Union Electric Light and Power Co. of St. Louis, Mo., wishes to correct the impression that domestic rates in St. Louis are higher than in Los Angeles, as given by the Los Angeles Bureau of Power and Light in its advertisement reproduced above. Quite the reverse is true as is disclosed by the following-

THE FACTS

First - During the year 1926 the average St. Louis residence customer used 38 kilowatt hours per month, and paid for this service . . . . . . . . . . \$1.86 (and in addition received new lamps in exchange for old ones FREE)

Second-At Los Angeles Bureau rates this service would have cost......\$2.13

Third-Los Angeles Bureau rate is higher than St. Louis rate by ...... 14.5%

Fourth-Including renewal of old incandescent lamps with new ones Free of Charge, as enjoyed by St. Louis residential customers, Los Angeles Bureau rate is Higher than St. Louis rate by

THE ELECTION ISSUE
The West Adams storm drain scanda is the most serious matter now before the voters of Los Angeles who shortly choose a new City Council.

The testimony given before the investi-ating committee last summer and before the Council during the past two months has demonstrated anew that the city gov-ernment is in the hands of politicians who

were exposed by Contractor Peter R. Gadd's \$298,985 bill of "extras" on a storm drain in West Adams street—a bill of extras which was to be added to his contract price for the drain, complete, of \$268,269—the Council proceeded to take \$30,000 words of testimony at an "investigation" last summer and at least 500,000 more at the present hearings—and have done nothing.

Throughout the Gadd case the Mayor has sat in his office and done nothing. A real

Mayor would have called before him last July the Board of Public Works, the City theer, the contractor, Chief Enginee Incliand and Assistant Chief Enginee H. A. Van Norman of the Bureau of Water Works and Supply, the outstanding engineers in the city's employ, and by the force of his personality and position reached a solution in a few hours that would have been fair to the contractor's financial backers and to the property owners in the as sessment district who must pay the bill Then the Mayor would have dismissed Pubconstruction work for the board, and would have given the remaining members of the

neering departments such a jolt that there would be no more Gadd cases.

A majority of the present Council will go into the primaries with the backing of the city "administration." Their votes have been the backbone of the power of Boss Perret, for the Council majority approved of everything the "administration" asked them to do. The records show that, through Public Works Commissioner Dunn, the "administration" approved of political contracting and inspection and storm drain extras ad ith, until the Gadd case came along. The anger of the administration at President McGuire of the works board is unbounded because McGuire exposed this condition and because McGuire exposed this condition and spilled the beans." The administration spiried the beans." The administration yes men must, therefore, "get shed" of the Gadd case as soon as possible and then try to get their constituents to forget all about it before the primaries on May 3. Such is the administration's job in the cam-

ful adherents, has already withdrawn. It is idered doubtful whether Councils ominated at the primaries. Councilment lughes, Barnes, Sparks and Shaw have real on their hands in their districts, because of their labels as "admin-

Alarmed at the possibility of losing con-trol of the Council at the coming elections, Parrot and his lieutenants are mysteriously placing "second-string" candidates in the race, men who are not known to wear the "administration" label, with the crafty idea that should the incumbents be defeated the

Here is the crux of the Gadd case, which no one in all the 830,000 words of testimony. has ever even tried to get at:

What happened between the time that Public Works Inspector Rook closed down contractor lay the storm drain on a rock foundation at his own expense, and the time that the work was started up again with the contractor laying the drain on concrete mattress and piling at the expense of the people in the assessment district and charged for as "additional work" or extrac?

If ever this question is answered truth drain extras may be cleared up. It may will be replaced by Councilmen working the forthcoming elections. The case is: Peter R. Gadd, the city administration, its

Mayor and City Councilmen vs. the people. PALM BEACH

of mob psychology. There is a rush to get in when the unthinking lose their heads; then comes the counter-rush to get out, and the one is just as unreasonable as the other. Corners in real estate are as unstable as those in stock and grain futures.

Two years ago, when real-estate specula-tion at Palm Beach, Pla., was at its height, The Times' sounded the warning that such ation was more likely to destroy pros perity than to promote it. This warning came from far away, and the paper mil-lionaires of Florida discounted it in high scorn as advice motivated by envy.

Frensied speculation continued. The wise

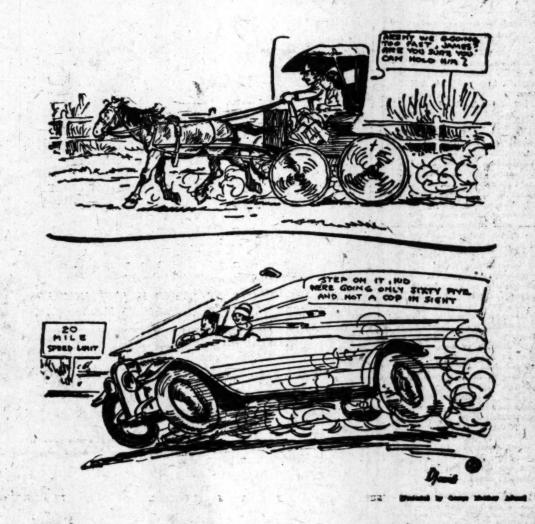

sold when prices had passed the point where the property purchased could pay dividends on the investment, and the foolish bought. Then came the reaction. The foolish were as crasy to sell as they were to buy. Came the inevitable bank failures; for the bankers themselves had been carried away by the frenzy of speculation and had loaned money on the speculative values of the real estate. They found the property on their hands and little cash.

Curiously enough, the excitement of the failing banks so spread that the colored population in and about Palm Beach imagined that the whole financial and economic system of the country had broken down They started a run on the postoffices where they had deposited money on a savingsbank plan. They thought the Federal gov-ernment was failing, too.

And this is the period when the wise are

Beach. Florida climate is just as delec-The problem of parking is just as much a jubic question as the going. of the places where the natives lost their heads. They wanted to get rich over night; and they boosted property values, which brought in its train a trebling of the cost of fiving. Exorbitant prices were asked for board and lodging, necessitated by the exorbitant prices paid for real estate. The tourists soon found that they could secure Last winter fewer tourists came to Palm Beach; and right then came the bursting

The history of the development of this country is filled with records of bursted booms. Los Angeles had its own experiences in 1886; and that one experience which came on the tail end of the boom of the people here have been able to keep growth of the last twenty-five years as a proof of the restraint that has been exercised by our financial institutions when aught like a boom appeared.

has been little real loss; only the specula suffered. Palm Beach property is worth just as much as it was two years ago. It is only the selling price that has fluctuated.

DOPE AND JUSTICE
Pederal Judge George M. Borquin of Montana, sitting in a narcotic case in San Francisco in which the defendant was shown tax of 50 cents on the drug he was proved him \$5 for the tax delinquency and let him usual procedure that it is a "tragedy" when a man can be haled into court for a tax delinquency of 50 cents and subjected to possible imprisonment. The moral side of the issue he refused to consider, holding the Harrison Narcotic Act to be an attempt to falls. But the bandwagon will roll mered usurpation of the State's right to regulate moral conduct, complaining that it seeks to make of district courts mere po-

Judge Borquin's view of the narcotic act is well known in Montana, where prosecutors of cases involving violation of its pro-visions shun his court, preferring to try their cases in State tribunals, but the decision came as a shock to enforcement officials in California, who recognize that if concurred in they will lose their principal weapon in the fight against the drug evil.

The Harrison Act is broad in its scope, covering all phases of the traffic, smug-gling, sale, taxation, its use legal and othit as a revenue measure only, holding that Congress exceeded its authority in the reg-ulation of the drug's use within the States, contending that the States must uphold the moral side of the issue. Such reasoning would deprive the Federal government of authority to enforce its prohibition law except in the matter of smuggling and inter-state transportation. The view represents the extremity of States' rights advocacy, go ing far beyond what there is any popular demand for. Adhering to his personal view, the judge refused, in the case referred to, to impose sentence as the law requires.

Just how a judge can impose his personal views of such a law when the drug evil is admittedly increasing, offering serious menace to the welfare of society, is difappear that the least he could do would be terference from a source which should pro-

The Business show
Exhibiting, demonstrating and exploit ing the various new modern devices, sys-tems and equipment which the up-to-date business man finds necessary in order to keep pace with his competitors, the Nation al Business Show, to be opened at the Am-bassador on Monday and to be run until Saturday, will afford much attraction to the commercial world of Southern California, This show, which has not appeared in this city for two years, enjoys much popularity wherever it is given. It is an annual affair in New York and is attended by thousands of business men there.

A feature of the show is the giving of

free advice by about eighty efficiency men in various lines of business. These will explain many new devices and systems for as that of the outside salesman and solictor. Office employees will be given special instruction.

According to a survey of the metropolitan section of the Taylor Society made re-cently, it has been found that business of-fices are not 50 per cent efficient. This finding probably does not apply to Los Angeles, but more to less enterprising cities yet nothing is truer than the trite old di tum that there always is room for improve ment. Our business men doubtless will learn many new wrinkles at the show, and the increase of trade in this city.

Office waste is a matter that will be par-ticularly discussed at the show, and instructions as to how to prevent it will be given. It is estimated that savings of \$900,-

HEUMATIC STEEL VHEELS "Dual pneumatic steel wheels, and Direct Advertising produced by this organization— both can be counted upon to deliver the goods in good shape."

"BRASS TACKS" analysis of their advertising would bring quite a few executives up short. It would show that instead of using Direct Advertising in a minor capacity they should make it the principal part of their advertis-ing programs; because, with strictly limited markets, their advertising should be directed, in the main, only to those they can be reasonably certain are possible buyers. Concentration minimizes waste to the benefit of profits.

Customers of this printing house find ours an uncommonly satisfactory service. Not only do our extensive and modern equipment, and the large experience of our personnel operate to their advantage, but many find our Service Staff of very great assistance; it acts as the customer's advertising department.

We seek the opportunity of demonstrating our serv-

TWO new hair beautifiers, the delopment of an eminent hair specialist,
a available to you now in a form more
avenient than you have ever known—
a TwinPacket little larger than the
alm of your hand. They are both comonites of Nature's finest cosmetics.

hese two new natural hair beautifiers together form a complete new hair ment—a better and more luttrous sod of hair cleansing. A new method gives greater sheen to the hair and a ng of absolute hair cleanimess.

One of these beautifiers, SunGlint thampoo, is a scientifically blended, liquid shampoo, free from alcohol, alkali or ether—different from others because it contains nothing that will dry the scalp. It contains only Nature's pure cleaning oils that lather abundantly. These sils were selected for their great absorption qualities. As the lather penetrates and loosens the fine particles of foreign matter, the sils absorb them. You'll notice the difference when you try it.

Together, these hair beautifiers offer a new, complete natural method for gio-rious Sunny Glint hair cleanliness.

The TwinPacket contains both, and enough for three generous treatments—three shampoos and three risses, for 25c.

LIFE IN BALANCE

"Secondly, I want to thank Mr. Fairbanks for encouraging me in my desire to come to California. I came to this State, the first in the Union to show its real appreciation of great art, to pay an indebtedness. It was the fate of the Bussian Ballet, which introduced to the world Gertrude Hoffman, a native daughter of California, that in 1911, was to decide my future career, and survival. With this ballet I reached California, fifteen years ago, facing debtors' prison and the forced abandonment of the ideals of my career of bringing beauty to the masses.

"My very life hung in the balance for without the possibility of doing beautiful things of what value would life itself be? And the native sons of the State of golden sunshine and flower-besprinkled mountains rose to a magnificent appreciation of the colon full art of Leon Bakst, of the music of Rimsky-Korsakoff, Glinks and Glazounoff, of the plastic symphony of Gertrude Hoffman, Theodore Kosloff and their Russian colleagues.

"Tes, bo pay a debt I came," continued Gest. "But I fear that I have succeeded only in increasing the size of it. I came to California, a sick, broken man and now I feel better than ever. The only way to pay this debt is to continue to do beautiful things, and to do them here.

its fifth anniversary yesterday

its fifth anniversary posterday in gale fashion with an exceptional quadruple headline bill, including everything from slap-stick to grand opera, and making the word "variety" live up to its full meaning.

The overworked term "something for everyone" found realization in yesterday's offering, and the sudience responded with applause of hearty approval.

Lovers of the dance had a rare opportunity of witnessing an unusual dance rerus in that offered on the bill by the Five Stars, including Iris Rowe, Marvel, Ruth De Quincy, Marie Stagg and Esco La Rue.

All of the dances introduced in this sketch were novel and interesting, perhaps the best received being the doll number. Marvel, the deaf and dumb dance artist, did some especially commendable work in the revue.

PASADENA FIRST

"In Southern California I shall present 'Chauve Souris' first at the Community Playhouse in Pasadena, under the sponsorship of a committee headed by Mrs. Milbank Johnson, president of the theater. The members of the committee are:

"Mrs. Charles P. McCullough, Mrs. J. C. Gripper, Miss Eleanor M. Bissell, Miss Louise Crawford, Miss Elizabeth Connor, Karl A. Kleiing, "Flames," starring Virginia Valil, Jean Mrs. Mrs. Mrs. C. Berrowil, Mrs. Stewart Hersholt and Sugene O'Brien:

ALL-TSCHAIKOWSKY PROGRAM POPULAR

With Pine Playing

DY ISABEL MORSE JOHNS It was 'cellist's day at the Philhes ance and Hans Kindler, formerly first cellist of the Philadelphia Symphony,

ance and Mans kindler, formerly new collists of the Philadelphia Symphosy, was the soloist.

A pall of sadness hung over the orchestrs and the audience as this was the first concert in the audience on Monday for Los Angeles' reversed conductor, Waiter Henry Rothwell.

The "Andants" from Techalkowsky's string quartet Op. 11, was played again in momorism with the conductor's stand significantly veach.

Variations on a Rocces theme was chosen by Mr. Eindler for his Los Angeles debut. It proved a grateful vehicle for the display of his highly developed sense of dramatic values and his opulent calle tons. Eindler its one of the few at the top line of collisis. He makes this difficult instrument speak in a warm and luscious veice and his glissands bowing and fingering are matters of weatherment for other 'cellists to entry.

The young Dutch musician is blessed with an othereal survoils

'SMILIN' THRU" IS DONE WITH CHARM

Now at Belmont

BY MARQUIS BUSBY In a day when sex and talk, n cturesque than polite, rule the age, it is altogether pleasant to sloome a tenderly moving fantasy welcome a tenderly moving fantasy like "Smilin' Thru," which opened at the Belmont Thester last night.

This play by Allan Langdon Smith, although it cannot be more than a decade since Jane Cowl first played the dual roles of Kathleen Dunagannon and Moonyeen Clare in New York, seemingly belongs to the older school of play writing. Its action is smooth, and there is a lyrical quality to the lines missing in the staccato stage conversation of today.

I believe that "Smilin' Thru" is sometimes belittlingly characterized as "handkerchief drama." Certainly many of the scenes are genuinally tearful. However, the alighting term has had little effect on the success of the play. It ran for several years on the stage, has been presented a number of times on the Los Angeles stage, and Norma Talmadge appeared in the motion-picture version.

The Relmont production is one of

the are people that one knows, and that perhaps makes her task more difficult. She has to be painstakingly careful of results. At the same time, each impersonation has a warmth missed missed may be enjoyed in the world of make-believe.

Of the additional recitals by Miss Dray r one will be given at the moon and another at the amn theater Priday evening.

Music Box

Show Is Hit at Biltmore

Less evening I had my first glimpes of the first presentation about two months ago, and it is a mitch exhaust since the first presentation about two months ago, and it is a mitch exhaust since the first presentation about two months ago, and to it a mitch exhaust since the first presentation about two months ago, and to it a mitch exhaust since the first presentation about two months ago, and to it a mitch exhaust since the first presentation about two months ago, and to it a mitch exhaust since the first presentation about two months ago, and to it a mitch exhaust since the first presentation about two months ago, and to it a mitch exhaust since the first presentation about two months ago, and to it a mitch exhaust since the first presentation about two months ago, and to it a mitch exhaust since the first presentation about two months ago, and to it a mitch exhaust since the first presentation about two months ago, and to it a mitch exhaust since the first presentation.

The Four Horese of Hollywood, while rough in spots, gains a mirthul and with Fanny Brice nesding the case of the special property of the exhaust since the first presentation.

The show as a whole, offers much some and another and the presentation.

The show as a whole, offers much as a missed and another and another and the production to the presentation.

The show as a whole, offers much as the production to the principal production to the presentation.

the shores of the Mediterra tary point of view-Egypt, Algeria co, Tunisis and even Abyssin are enjoying the most popular tour ist season in their several histories. Several facts contribute to explain thus unusually large influx of visi-

tors, a large part of which, if not a majority, is composed of Americans. First, naturally, is the age-old lure of the Nile and the more recent popularization of shelk-lore. Next comes the popularity of see voyages of definite time limits and ports of call about modernized and lururious aboard modernized and luxurious steamers, twenty-six of which have made the Mediterranean cruise this winter. And, lastly, is that new dis-

made the seculterranean cruise this winter. And, lastly, is that new discontent expressed by traveling Americans for the worn routes of Europe, now almost as Americantsed as Philadelphia or Los Angeles—that longing for new worlds to conquer—the destre to get off beaten paths.

Perhaps in order to satisfy that urge Americans are hurrying to make the tour of Northern Africa before the tourist agencies have standardised it to a five-day automobile jaunt and the natives of Oudjes acquire a west-side accent. If this be their aim they are wise for already motors equipped with tractors are treading the shifting sands of the Sahara, where once camels and rugged desert ponies were the only mode of locomotion, carrying passengers in comfort from oasis to oasis, where modern hotel await their arrival.

der, salt and pepper.

Ing passengers in comfort from easis to easis, where modern hotel await their arrival.

The Cairo season, due to the number of prominent visitors, has been unusually brilliant Lord and Lady Flummer are stopping at the Restdency. Vice-Admiral Burrage of Vermonit, commanding the United States Flest in European waters, and his officers of the flagship Memphis, have added to the sest of social events. Mrs. Harry Fayne Whitney and her daughter, Mrs. Whitney Tower, have gloined the private dahabean Socrab at Assuan for a Nile trip to the Second Cataract. Ernest Tres, former United States Consul st Alexandris, and Mrs. Ives are at the Continental-Savoy Hotel on their way to Constantingly. The Duke and Duches of Sutherland with Mr. and Mrs. Robin d'Erisnger, have left Shepheard's Hotel for a hunting frip in the Sudan.

Gordon MacCreagh, his wife and Gordon MacCreagh, his wife and Earl Roesman, Amarkean explorer, have arrived at Dijbuti, in French Soma iliand, on their way to Abyssinis, where they will seek the Ark of the Covenant and hunt big game. Drains, where they will seek the Ark of the Gordon MacCreagh, his wife and are on their way book view, arrived at Dijbuti, in French Soma iliand, on their way to Abyssinis, where they will seek the Ark of the Gordon MacCreagh, his wife and Gerald Cassidy, the New Mexican arists, and Mrs. Cassidy, formerly of Denver, Colo,, well-known poet and writer, after a sojourn in Tunisia are making a trip into the desert aboard one of the cild-fashioned "hips."

aboard one of "hips."
Miss Pat Mohun. Paul Rindricks of Baltimore and Jennings Perry, the Tennessee writer, have arrived in Ghardais in Algeria during the course of a bicycle tour of Northern Africa.

of a bicycle tour of Northern Africa.

Lady Dorothy Mills, the writer, spent the last month at the Hotel MZab in Ghardais, where other guests included John Simmons, the painter, and Mr. and Mrs. J. D. Anthony of Philadelphis.

There are a number of very interesting women in Monte Carlo this season who are American by birth, among them being the Princess Hatzfeldt, who was Miss Clara Huntington of Californis, adopted daughter of the late Colis P. Huntington, and sister-in-law of Henry E. Huntington of Cas Angeles and Passadens.

Mrs. Holt Berths Clark and her son of Passadens have been stopping at the Beau-Rivage Hotel in Lausanne, Switzerland, and Carl E. C. Beebe of Los Angeles was a recent visitor lands.

Suggestionis **TOMORROWS** MENU COCOANUT MOUSSE COCOANUT MOUSSE

One teaspoonful gelatine, two tablespoonfuls hot water, one-half cupful
sugar, one-half cupful boiling milk,
two cupfuls whipping cream, one cupful chopped cocoanut, three tablespoonfuls orange julce.

Dissolve the gelatine in the hot
water, add the milk; cool and add
the ococanut, sugar, orange julce and
whipped cream. Pour the mixture into a chilled mold. Pack in ice and
salt for four hours. Garnish with
stars of whipped cream.

BEEF EN CASSEBOLE

Two and one-half pounds beef, two tablespoonfuls beef drippings, one small carrot, cut in dice, one tablespoonful flour, one small onion, sliced, salt and pepper to taste, one cupful strained tomatoes, one bay

leaf.
Salt and pepper the meet and dust
with the flour. Heat the fat in a frying pan and brown the meet in it on
all atdes. Place meet in casserole,
add other ingredients, cover and let
simmer at a low temperature until
tender, keeping the casserole well covered so as not to allow the steam
and juices to escape.

Split Pes Soup
Dill Pickles
Beef en Casserole
Sweet Potatoes
abin Selad, French D

Six hard cooked eggs, six slices of most, onion, one cupful stock, one upful milk, two teaspoonfuls of ornstarch, one teaspoonful butter, cornstarch, one teaspoonful butter, one-quarter teaspoonful surry powder, sait and pepper.

Remove the shell from eggs and cut them into quarters lengthwise. Arrange on alices of het buttered toast. Rub thebottom of a saucepan with a slice of onion. Mix the cornstarch and curry powder. Make a sauce of the stock, mill; cornstarch and curry powder, fat and seasonings and pour over the eggs and toast.

Maynard McFie and Frederick Mac-lesso of Hollywood, author of "Tin Hata," are for a few days in Gence, following their erosaing aboard the liner Conte Biancamano.

E. D. Rand of Los Angeles, secretary at the United States Embassy in Ma-drid, is among the arrivals at the Hotel Bellevus Palace in Berne, Switzerland.

Switzerland.

The marriage has taken place in Florence, Italy, at St. James American Episcopal Church of Walden Elbert Trimble of New York, son of Mr. and Mrs. Milson E. Trimble, and Miss Ellen Cargill Hanchette, daughter of Mr. and Mrs. Prederick M. Hanchette of Pasadens. The wedding was a social event in the American community. After the ceremony, Mr. and Mrs. Trimble left by automobile on their wedding tour to Venice. They intend to return for a few months to Florence before they leave to reside in New York. Mr. Trimble is a writer and has many friends in American literary and artistic circles.

Chaffer Earl of Los Angeles is in Chaffey Earl of Los Angeles is in Paris, coming Leipzig Germany, and staying at the Hotel de Crillon.

HOUSEHOLD SUGGESTIONS

A Tidy Habit

If the clothes you wear are looked over each time before they are put away, brushed, buttons tightened, etc., your wardrobe cannot help but be peat and in good condition at all

Removing Wax

Don't scrape wax from silver or brass candlesticks and run the risk of scratching them as well. Plungs the parts with the wax on them into bolling water and melt the wax away instead of scraping it. Test It First

When trying a stain remover on a garment, try it first on an underneath section of the garment where it will not show. Then if the color is affected by the stain remover there will be no harm done to the frock it-

The ironing board is very apt to become dusty, especially the entresting on the floor. One housewif has a dark blue percale bag which

Paper that has stuck to the ished surface of the dining-table can be removed by rub

# CAMP CASE IN

Murder Suspects Ordered Freed From Jail

District Attorney Appeals to High Tribunal

Much Interest Manifested in Kings County

HANFORD, March 20.—The deision of the Second Appellate Court
it Los Angeles, in the celebrated Lee
The lower house already has
passed a bill, introduced by Assemblyman W. A. Duval, authorizing the at Los Angeles, in the celebrated Lee camp murder case has been appealed by the State Attorney-General's office and it will now go to the highest court in the State Jennie Laura Brown, John H. Tipton and Fred Mills, convicted of the murder of the wealthy young rancher, Lee Camp, foster son of Mrs. Brown, have been in the County Jali here for a year and a half, since their conviction, such taking an appeal.

The Appellate Court, decided in their favor and ordered dismissal of the grand-jury indictment against them on the ground of misconfuct on the part of the prosecution, introduction of irrelevant, prejudicial and hearsay testimony, tumultuous applause and cheers for the prosecution in the courtroom and the taking of testimony by the grand jury sut of chambers and in the presence of other personis.

There are two possibilities of socion on the part of the Supreme Court: It may, order the ease presented to it on its merits, or it may grant a rehearing of the case on the proposition of the Appellate Court's redering the trial court to dismiss the indictments.

The Lee Camp case has been one of the most sensation after sensation followed at the trial and subsequently when Mrs. Brown, one of the accused, and Mrs. Brown, one of the socused, and Mrs. Brown one of the socused, and Mrs. Camp murder case has been appealed by the State Attorney-General's office

#### KITE CONTEST

od School Anhounces Inter-

INGLEWOOD, March 17.-March

rinds are to be given a thorough sorkout at the Queen-street gramar school on next Thursday, when the Frying Day is to be observed by the pupils at that institution. I number of handsome prises will be awarded the winners, according to Virgil Dahl, physical instructor of the departmental school, who ansunces the rules of this novel contest as follows:

Any pupil of Queen-street school may enter. Each pupil may enter the kite in one event only. The fite entered must be made by the goy or girl entering it, and each pupil must earn the money to buy the materials for making the kite.

The four events are as follows:

It of speed in keeping kite in the lar, using 300 feet of string; kite having strongest pull, using any magth of string: best spectacular funt, releasing parachute, etc.; kite and the pupil was permitted.

Wage Battle Before Board of City Directors

Suggest Trains be Moved by Electricity

for thirty of the wealthiest and most prominent residents of Pasadena will match their arguments against those of Union Pacific Railway representa-tives Tuesday when the railroad

They object to the roar, smoke and piercing whisties—particularly the whisties—of the trains, and assert that electric engines could easily be installed for the short run between Los Angeles and Frasdens.

A. Stevens Haisted, counsel for the road, who has asked renewal of the franchise, declares that this course is out of the question, that it would cost approximately \$750,000 to electrity the road into Frasdens and that it would not pay, as only two or three trains are run daily.

The directors have set 10 am. Tuesday as the time, for a public hearing when attorneys for both sides can present their arguments. It is believed that the railroad company will claim a perpetual franchise from Los Angeles county.

sn announcement of Foster campaign headquarters.

The committee includes Mrs. C. L. Higglins, Mab Copeland Lineman, Mrs. A. L. Lawton, Dr. Luna Phelps, Dr. Rose Alexander Bowers, Mrs. John T. Coleman, Mrs. A. Barker, Mrs. P. M. Joens and Mrs. J. S. Winchester. Former Judge Dana R. Weller has issued an indorsement of the candidacy of Foster. The indorsement said:

"Douglas E. Foster, who seeks election to the City Council from the Tweifth District, deserves the support of all citizens who are interested in good government and desire to be properly represented."

Supporters of John Topham for

Supporters of John Topham for Councilman in the Fifth District have organized a series of neighborhood meetings for him to explain his platform of "abolish overlapping assessments and give the home owner a chance." The first of these gatherings were held at the homes of Frederick G. Topp, 2007 Halidale avenue: Yaughn H. Meadows, 2439 Marne avenue, and ex-Councilman John bB. Reeves, 2124 Vermont avenue. Topham said he proposed, if elected to the Council, to work for necessary

Councilman Criswell, candidate for re-election in the Seventh District, has opened headquarters at 411 South Broadway. E. G. Coffin is in charge of the campaign headquarters. Councilman Criswell is now serving his fifth term in the Council.

Candidates to take out petitions late last week included Frank W. Berkshire to oppose Councilman Randell in the First District (San Fernando Valley.) and Fred J. Beaton and Donald B. Crites for the Board of Education. No new candidates for Municipal Court judge took out petitions during the last half of the week, and the forty-three candidates who had taken out petitions apparently completed the list who will enter the race. As fourteen incumbent judges have no opponents the twenty-nine remaining candidates will battle for the ten remaining places on the Municipal Court bench.

Mrs. Alma Nordstrom has filed a williams Building. according to an analy bear of the Municipal court bench.

Beadquarters for the campaign of the provided have taken them to use in his asserted purse-matching the part of the following places on the Municipal Court bench.

Mrs. Alma Nordstrom has filed a printing on the Municipal Court bench and announced by make that a provided by the campaign of Municipal Judge Stanford in the Council. M r s. Nordstrom said: "I stand for more economical and emicient administration, and quicker action. I believe in sane, conservative development, with due regard to the small properation with the other districts of the city to improve the city as whole."

Nordstrom side: "I stand for more economical and emicient administration, and quicker action. I believe in sane, conservative development, with due regard to the small properation with the other districts of the city to improve the city as a whole."

The Building, 229 North Broadway. The youth is said to have taken them to use in his asserted purse-snatching work. His method, according to an announcement by Louis G. Guernam for the campaign of the sutomobiles in question have been established at 1204 Chester to use in his asserted purse-snatching your work. His method, according to police, was to take an automobile, abandon the car and then go home and change his clothes and start out afresh.

Williams Building, according to an announcement by Louis G. Guernam free y, campaign chairman. Maj. Announcement by Louis G. Guernam free y, campaign chairman. Maj. Announcement by Louis G. Guernam free y, campaign committee chairman and C. H. Deffebach, executive secretary. Mrs. Williams before midtight Saturday in the 200 of fifty. The general campaign committee includes members of Stanford to the sutomobiles in question have been recovered, police said. The youth is said to have taken them to County Jail. She denied having taken any of the automobiles in question have taken them to capture the county Jail. She denied having taken any of the automobile in question have taken them to capture the county Jail. She denied having taken any of the automobile in question have taken them. According to Capture to taken from the possession said to have been taken from the apartment of E. G. Mrs. Goodeff had property. According to Capture police, was to take an automobile.

Police said the youth was identified yesterday by Mrs. Ethel Caswell, 2610 the first have been recovered to the said to have been to taken from the apartment of E. G. Mrs. Goodeff had property. According to Capture the police, was to take an automobile.

Both the louder the county and them go home and charge and them go home and change and th

wilshire police and Capt. Cato stated that Mrs. Goodeff had volunteered to show him where much of the property has been concealed, declaring, however, that she was not the person who took it.

Bandit Forces

Victim to Drive

to Empty Shack

An armed bandit who jumped on the running board of his machine yesterday forced Garret Nagis, 33 years of age, collector for the Pan-American Petroleum Company, to drive to a deserted shack. There the bandit and a companion bound him, beat him into unconsciousness and robbed him of \$200, according to Nagle's story to the police.

Nagle said he was crossing the Pourth-street bridge when the bandit tackled him and forced him to go to a shack on Sents the Pandit tackled him and forced him to go to a shack on Sents the Pandit tackled him and forced him to go to a shack on Sents the Pandit tackled him and forced him to go to a shack on Sents the Pandit tackled him and forced him to go to a shack on Sents the Pandit tackled him and forced him to go to a shack on Sents the Pandit tackled him and forced him to go to a shack on Sents the Pandit tackled him and forced him to go to a shack on Sents the Pandit tackled him and forced him to go to a shack on Sents the Pandit tackled him and forced him to go to a shack on Sents the Pandit tackled him and forced him to go to a shack on Sents the Pandit tackled him and forced him to go to a shack on Sents the Pandit tackled him and forced him to go to a shack on Sents the Pandit tackled him and forced him to go to a shack on Sents the Pandit tackled him and forced him to go to a shack on Sents the Pandit tackled him and forced him to go to a shack on Sents the Pandit tackled him and forced him to go to a shack on Sents the Pandit tackled him and forced him to go to a shack on Sents the Pandit tackled him and forced him to go to to a shack on Sents the Pandit tackled him and forced him to go to to the belief that tackled him and forced him to go to to the belief that tackled him and forced him to the pandit tackled him and forced him to the p

go to a shack on Santa Fe avenua. There the other bandt appeared. A blow on the head prevented Nagle from attempting resistance or outcry, he said, and he did not recover for nearly three hours. Then, about 6 p.m. he managed to loosen his bonds and escaps.

Though the bandits obtained \$200 Nagle had in a bag they missed \$300 in his pockets, he reported. Nagle said he takes the same route every day and believed the bandits have been watching his movements.
